OFFICE COMMUNICATION

The reply filed on 6/5/03 is not fully responsive to the prior Office Action because of the following matter(s): In section 3 of the Office action paper #6, it was indicated that this application contains claims directed to the following patentably distinct species of the claimed invention: Both of groups II and I are drawn to methods of treating various types of neuronal deficiency and memory function disorders such as those listed in claim 2, and those summarized in pages 14-23 of the specification. If one of the invention groups II or I is elected, further election of a species, drawn to a specific neuronal and memory functional disorder, is necessary. Applicants responded with an election of the species between neuronal deficiency and memory function, however, the required species election is selecting a single disorder from either claim 2 or pages 14-23 of the specification.

Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the correction in order to avoid abandonment.

EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).
